

KURSK STATE MEDICAL UNIVERSITY RUSSIA

One of the leading Medical Universities

About Russia

RUSSIA

- A beautiful Country in Eastern Europe with a population of about 145.9 million.
- Russia, or the Russian Federation, is an Eurasian transcontinental Country located in Eastern Europe and Northern Asia. It extends from the Baltic Sea in the west to the Pacific Ocean in the east, from the Arctic Ocean in the north to the Black and Caspian Seas in the south. Russia covers 17,125,191 square kilometers (approx 6,612,073 sq mi), spanning more than one-eighth of the Earth's inhabited land area, stretching eleven time zones bordering 16 sovereign nations.
- Russia is the largest country in the world, the ninth-most populous country, and the most populous country of Europe.
It is one of the world's most sparsely populated and urbanized countries. About half of the country's total area is forested, concentrating around four-fifths of its total population on its smaller and denser western portion than its larger and sparser eastern portion.

Capital : Moscow

Official Language : Russian

Population : 147,182,123 (2021 Census)

About KURSK

- Kursk is a city in Western Russia and the administrative Centre of Kursk Oblast, Russia, located at the Kur, Tuskar, and seym rivers' confluence. The area around Kursk was the site of a turning point in the Soviet-German struggle during World War II and the largest tank battle site in history.
- As an administrative division, Kursk is incorporated separately as the city of Oblast Significance, an administrative unit with a status equal to that of the districts.
- Kursk State University is home to the Russian Chamber Orchestra, under Conductor and trumpet soloist Sergey Proskurin.

Opportunities

Upon Completion of your MBBS Degree

- ★ You can start working/practising in India. For that you need to appear for the National Medical Commission (NMC) Screening Test, only then you will get the license as an authorised doctor in India.
- ★ Students can have the mentorship of different groups dedicated to NEXT Exam. It help our students to crack their screening test in the very first attempt.
- ★ To start working/practising in USA, you need to appear and pass the USMLE (the United States Medical Licensing Examination). USMLE is a 3 step examination that is required to be cleared to gain a license as an authorised doctor in USA.

Recognition all over the world

- ★ The University is highly accredited and has recognition from NMC, WFME, CFMG, UNESCO, AMA and GMC. Good thing, a medical graduate from KSMU is welcomed everywhere.

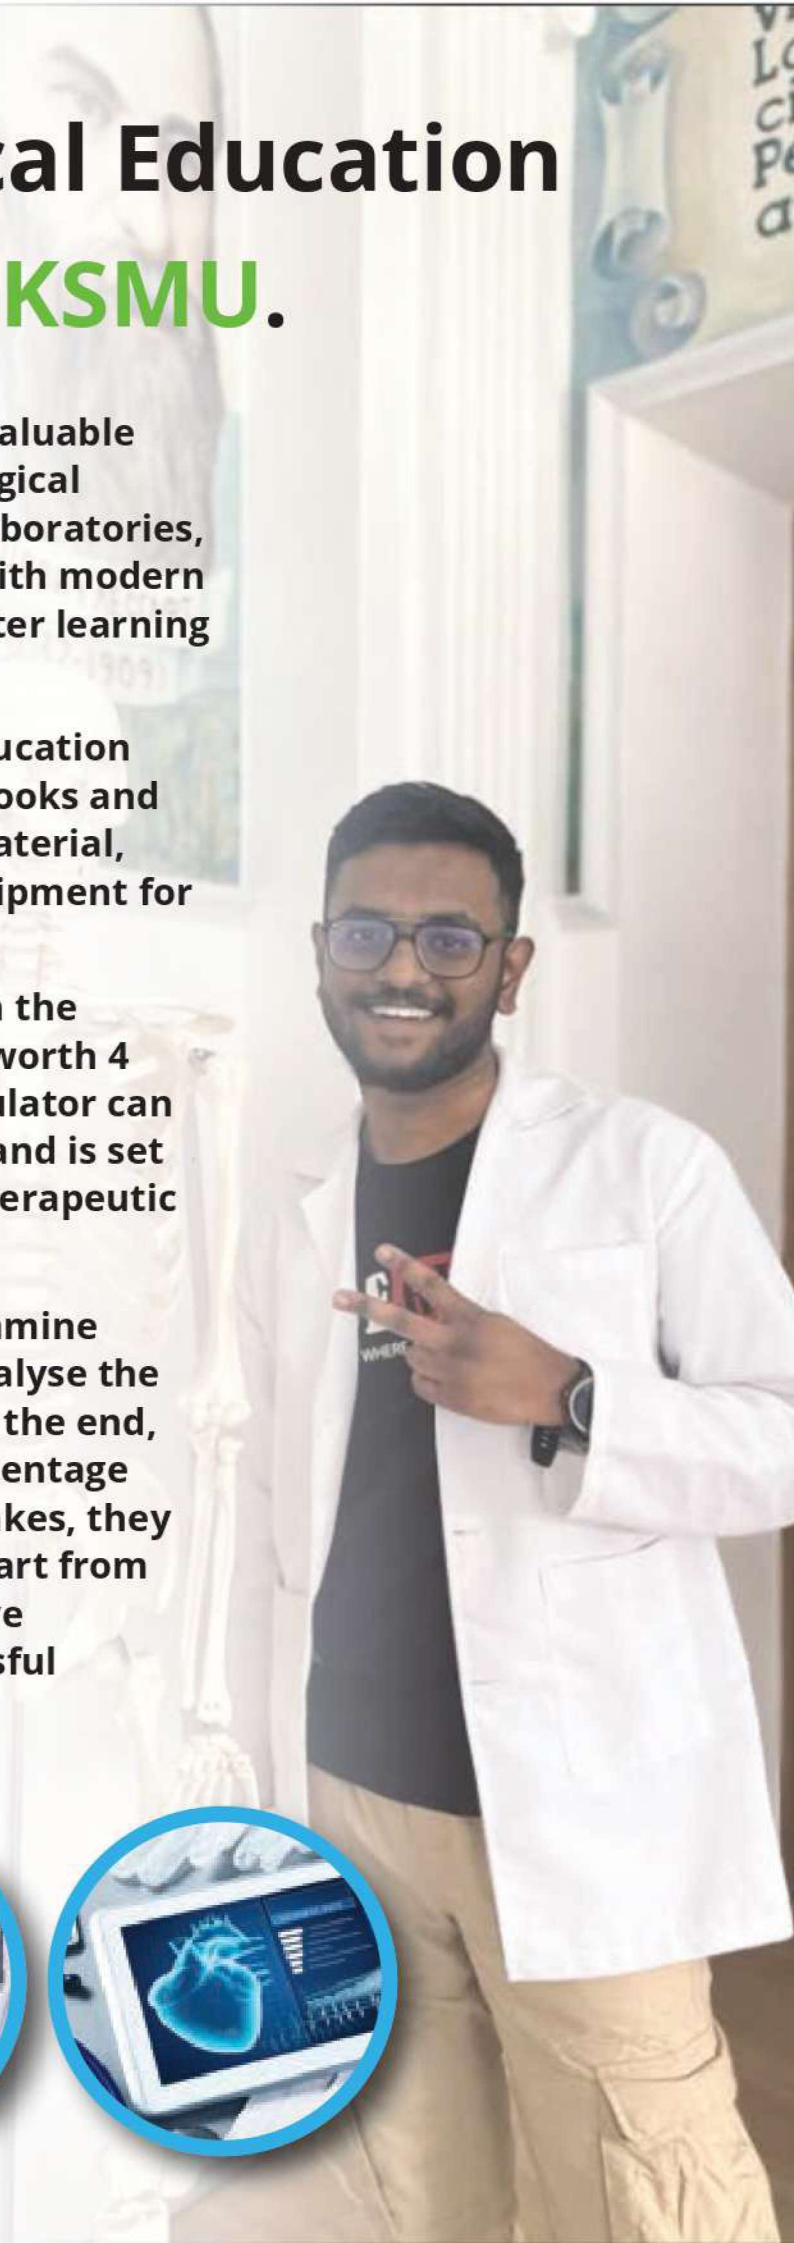

Advanced Medical Education Technologies at **KSMU**.

At KSMU, we believe in imparting a valuable college experience through technological advancement. From classrooms to laboratories, the university campus is equipped with modern and advanced technologies for a better learning experience for the students.

KSMU offers high-quality medical education through extensive Wi-Fi support, e-books and other forms of electronic learning material, better machines, and diagnostic equipment for its students.

The university has new equipment in the Interdepartmental Training Center, worth 4 million UAH. The virtual patient simulator can emulate men, women, and children and is set up on more than fifty scenarios of therapeutic and pediatric profiles.

Students are given 15 minutes to examine and communicate with a patient, analyse the diagnosis, and provide treatment. In the end, students receive their results in percentage for each block, and if there are mistakes, they can easily be tracked afterwards. Apart from that, there are many other innovative technologies at KSMU for the successful learning of medical students.

Student's Life

KSMU is famous for its healthy and vibrant student life. Students can pursue numerous extracurricular activities, both multicultural and multinationals. Many students' groups function within the university such as student unions, international student's unions, student's unions by country represented, sports unions and more.

KSMU provides students with a world-class education in an environment full of new opportunities and ideas, helping to shape a better future for those students.

Learning new skills, meeting new and interesting people, making friends for life, these all are a normal part of the university experience at KSMU.

The campus is a bustling hive of activities and a real melting pot of multicultural cooperation.

There are many ways in which you can meet new friends here at KSMU, for example by joining one of the many vibrant student societies or creating one of your own! Our large and diverse student community makes for a very interesting environment to socialize, learn new skills and meet new people!

“ One of the leading Medical Universities in the system of medical education of Russia. It has become a training centre for medical and pharmaceutical specialists for many foreign countries. ”
