

Prospectus

BSMU

For 85 years BSMU has established the right to be recognized as one of the best universities of the region: rich historical background, wide research activity, active development and innovation allow the University to remain at the cutting edge of science and medicine.

Bashkir State Medical University

Leading excellence in medicine

Bashkir State Medical University, established in 1932, is one of the leading medical universities in the Russian Federation and the center of medical and pharmaceutical sciences of the Republic of Bashkortostan. More than 35,000 doctors of different specialties graduated including 3,000 foreign student graduates from the University in 85 years.

Sports Building

Indian students in Anatomy class

For its low tuition fee, excellent practice and knowledge, Bashkir State Medical University became popular among international students for medical studies. It has over 8000 Medical students and over 500 full-time faculty in General Medicine (MD/MBBS), Dentistry, Pediatrics, Pharmacy and Preventive Medicine. University is a member of the World Health Organization (WHO) and recognized by Medical Council of India (MCI).

About faculty

Faculty of General Medicine trains specialists in internal disease, surgery, obstetrics and gynecology, psychiatry, Otorhinolaryngology, dermatology and venerology, infectious diseases, etc.

The departments of the faculty are equipped with modern diagnostic facilities. Foreign scientists and professors are invited to deliver lectures.

General Medicine (MBBS)

Duration: 6 Years

During study, students learn through lectures, bedside teaching, case demonstration, outpatient clinics teaching and other modes of instructions and practical work. General Medicine course is taught in **English Medium** for the first 3 years.

Students in classroom

Clinical sessions

For the first 3 years of training, students are mainly focused on theoretical subjects like biology, medical physics, chemistry, biochemistry, human anatomy, histology, physiology, pathology, microbiology, Latin and foreign languages, social sciences. From the very beginning our students are involved in clinical practice: within 1st and 2nd year, they discover basics of nursing care at practical clerkship and basics of clinical examination. During the last 3 years, students learn clinical subjects: internal medicine, surgery, obstetrics and gynecology, public health and prevention.

Culture and Sports

In BSMU students while gaining medical knowledge, they take part in various cultural and sport activities. We can proudly say that our students demonstrate their innermost talents in different fields. We provide a platform to show, interact and teach each other with their unique set of skills, art and culture which helps them to grow as a team and perform well internationally.

Life in BSMU

Extracurricular activities

Here are few photos of Indian students performing in various concerts, exhibitions and sports.
