Alexandria University

Alexandria University, located in Egypt, was originally established in 1938 under the name Farouk University. Later, it was renamed Alexandria University. It stands as the second-largest university in Egypt. The university comprises around 21 faculties and three institutes. The Faculty of Medicine was introduced in 1942. The College of Medicine at Alexandria University aims to provide the community with doctors who are qualified according to World Health Organization standards, especially in diagnosing and managing public health issues based on scientific medical knowledge and ethical principles. Additionally, the College of Medicine is dedicated to offering high-quality patient care and facilitating research with a clear vision and strong commitment.

In 2024, Alexandria University in Egypt celebrated numerous significant events that underscored its commitment to academic excellence and cultural engagement. The Faculty of Engineering at Alexandria University marked the graduation of its 78th batch, which included the first cohort of students earning dual degrees in collaboration with the University of Essex in the UK and the University of Louisville in the USA.

This milestone reflects Alexandria University's dedication to internationalizing education and enhancing the global competitiveness of its graduates. The Faculty of Medicine at Alexandria University honored the top fifty students of the Class of 2024 in a ceremony attended by university officials and faculty members. This event highlighted Alexandria University's emphasis on recognizing academic excellence and preparing students for successful careers in the medical field.

Additionally, Alexandria University organized a Cultural Day for International Students at the Bibliotheca Alexandrina, celebrating the diverse cultures represented within its student body. This event showcased Alexandria University's commitment to fostering an inclusive environment and promoting cultural exchange among its students. Through these celebrations in 2024, Alexandria University demonstrated its ongoing efforts to provide a comprehensive educational experience that combines academic rigor with cultural enrichment. The Director of ICD also attended the event and expressed strong support for the development of international academic standards and student success.
